React.js	● ● ● ● ●
Git & Github	● ● ● ● ●

Projects

Twitter/X Clone

A project focusing on replicating the core functionalities of twitter, a well-known social media platform, demonstrating proficiency in tailwind, next.js, and react development.

Shoply (E-Commerce Website)

An e-commerce store and marketplace platform developed to facilitate buying and selling products, highlighting your expertise in creating commercial web applications

YouTube Clone

This project involved creating a YouTube-like interface using React, showcasing skills in JavaScript and user interface design

Professional Experience

Engineering Lead

Peristent Systems Ltd

2023/12 – present | Bangalore, India

Project: Cisco - IIOT Dashboard

- Spearheaded frontend development initiatives for an industrial IoT platform, focusing on enhancing user experience and interactivity with ReactJS, Redux, and JavaScript.
- Optimized application performance, achieving a 30% increase in responsiveness and a reduction in load times.
- Fostered a culture of continuous learning and code quality improvement, mentoring team members in best practices and advanced JavaScript technologies.
- Collaborated closely with UX designers, devops teams, and backend teams to elevate user engagement by 20%.
- Provided mentorship in best practices and advanced JavaScript technologies, enhancing code quality and development skills within the engineering team.
- Mentored junior developers, promoting best practices in code quality and modern JavaScript technologies.

Senior Software Engineer

Contact Point 360

2022/12 – 2023/12 | Gurugram, India

Project: Careers Job Portal

- Designed and developed a comprehensive job portal for industries including IT, healthcare, and finance.
- Collaborated with UX designers, project managers, and back-end developers to deliver high-quality web applications.
- Mentored junior developers and provided guidance on coding practices and software design.

Front End Developer

Infogain India Pvt. Ltd.

2018/05 – 2022/11 | Noida, India

Project: Sabre Airlines Portal

- Worked on front-end development projects for Sabre Airlines, including website redesigns and e-commerce integrations.
- Implemented responsive design principles, optimizing websites for fast load times and user experience.
- Developed and maintained web applications using React.js and related libraries.

Project: NCR CDM Portal

- Migrated the project from legacy angular codebase to react codebase.
- Implemented responsive design principles, optimizing websites for fast load times and user experience.
- Collaborated closely with UX designers, devops teams, and backend teams.
